Decolonizing the Westernized University

Michel Tournier defines the supreme mission of a writer to be the creation of a mythology which allows for interaction with his readers, who seem to be losing their critical faculties in our contemporary, postmodern world dominated by consumption and dizzying technological advances. Our contemporary society has changed due to the end of the modern era with its reigning ideologies. Collapsing after the atrocities of the Second World War, Modernity and the artistic and literary reactions referred to as modernism, have likewise been transformed. Myth continues to represent the collectivity of human existence, yet, in the short stories and novels of Michel Tournier, myth represents the collapse of the all-encompassing ideologies inherent to the Modern era. The grand narratives of Modernity such as Christianity and Man’s reason have been deconstructed in the postmodern era. The mythology of Michel Tournier expresses these trends towards the dissolution of Modernity and creates individual, mini narratives which emphasize the particularity of individual existence. Tournier takes established mythical models rooted in Christianity, fables and legends of Western Civilization and re-contextualizes them. Through a semiotic reworking of core binary pairs of a myth, Tournier creates a third-order level of representation which modifies the mythical model. The works of le Roi des Aulnes, Gilles et Jeanne, and Vendredi are illustrous of this third-order level of signification. According to Ferdinand de Saussure, Roland Barthes and Claude Lévi-Strauss, the structural make-up of myth transforms established meanings according to the dominant cultural code. Barthes’ semiological study of myth reveals the levels of representation through which myth creates meaning. Myth builds upon the denotive first-order level of language and through a connotative process, creates a second-order level. This connotative process does not
end on this second-order, for in the writings of Tournier, this semiological process is continued to a third-order which re-contextualizes the myth again. Tournier adapts myth to the unique traits of the postmodern era including deconstruction and playfulness by allowing the reader to provide the context of the story. As such we, the reader, take the place as author of our own individual mythology.

Robinson Crusoe: Paperback Student Book Without Answers

Stephen G. Walker, Akan Malici, and Mark Schafer present a definitive, social-psychological approach to integrating theories of foreign policy analysis and international relations—addressing the agent-centered, micro-political study of decisions by leaders and the structure-oriented, macro-political study of state interactions as a complex adaptive system. The links between the internal world of beliefs and the external world of events provide the strategic setting in which states collide and leaders decide. The first part of this ground-breaking book establishes the theoretical framework of neobehavioral IR, setting the stage for the remainder of the work to apply the framework to pressing issues in world politics. Through these applications students can see how a game-theoretic logic can combine with the operational code research program to innovatively combine levels of analysis. The authors employ binary role theory to demonstrate that relying only on a state-systemic level or an individual-decision making level of analysis leads to an incomplete picture of how leaders steer their ships of state through the hazards of international crises to establish stable relations of cooperation or conflict.

**Rethinking Foreign Policy Analysis**

Defoe's Robinson Crusoe (1719) and Moll Flanders (1721) together defined a new way of writing fiction in the eighteenth century. Each was highly controversial in Defoe's time, and each has generated a very large amount of criticism since. This Guide examines the major trends and movements in critical interpretation of these two popular and widely-studied novels, from the earliest reception history to the present day. The thematic and chronological organization of material points out similarities and differences between the two books, and maps Defoe studies onto some of the obvious lines of development that criticism in general has taken over the last century in particular, including feminist, ideological and postcolonial perspectives. The volume also features a section on adaptations of the novels in film and other media.

Daniel Defoe - Robinson Crusoe/Moll Flanders
Due to the critical thinking of the Enlightenment and to political changes, Christianity in Europe has lost its central position in society. Werner Ustorf, for nearly thirty years one of the leading missiologists world-wide, not only analyses the interaction of mission and individual, the construction of Self and Other in the context of mission. He also proves the analytic strength of theology in order to conceptualise the future of the Christian experience in Europe. Ustorf shows that apart from the primal dimension of faith even in a traditional way, the validity of non-religious interpretation, and critical trust in transcendence will be the core-elements of the new interculturaltion of Christianity in Europe.

This book establishes the complexities and originality of Defoe as a writer.

Study Guide to Robinson Crusoe by Daniel Defoe
An engaging look at how debates over the fate of literature in our digital age are powerfully conditioned by the nineteenth century’s information revolution. What happens to literature during an information revolution? How do readers and writers adapt to proliferating data and texts? These questions appear uniquely urgent today in a world of information overload, big data, and the digital humanities. But as Maurice Lee shows in Overwhelmed, these concerns are not new—they also mattered in the nineteenth century, as the rapid expansion of print created new relationships between literature and information. Exploring four key areas—reading, searching, counting, and testing—in which nineteenth-century British and American literary practices engaged developing information technologies, Overwhelmed delves into a diverse range of writings, from canonical works by Coleridge, Emerson, Charlotte Brontë, Hawthorne, and Dickens to lesser-known texts such as popular adventure novels, standardized literature tests, antiquarian journals, and early statistical literary criticism. In doing so, Lee presents a new argument: rather than being at odds, as generations of critics have viewed them, literature and information in the nineteenth century were entangled in surprisingly collaborative ways. An unexpected, historically grounded look at how a previous information age offers new ways to think about the anxieties and opportunities of our own, Overwhelmed illuminates today’s debates about the digital humanities, the crisis in the humanities, and the future of literature.

The Life and Adventures of Robinson Crusoe by Daniel Defoe (Book Analysis)

Writing Journeys Across Cultural Borders

De opbloei van de 18e-eeuwse Engelse roman werd onder meer ingeleid door het werk van Daniel Defoe (1660-1731). Naast honderden verhalen, artikelen en pamfletten schreef hij Robinson Crusoe en in 1722 de Voor- en Tegenspoeden van de Befaamde Moll Flanders. Hierin komt een bijna even eenzame, vrouwelijke Robinson aan het woord, die in de Londense (onder)wereld een niet aflatende strijd voert om financiële en sociale zekerheid. Vrouwen zonder geld en vrijwel zonder werk zijn aangewezen op de man: "Ik, verleid door de ergste van alle duivels, de armoede, maakte gebruik van wat men een knap gezicht noemde, om mijn noden te verlichten, en schoonheid tot een pooier van de ontucht te doen zijn." Molls strijd leidt tot twaalf jaar "hoererij", vijf huwelijken, waarvan eenmaal met haar eigen broer, en tenslotte tot twaalf jaar stelen, gevangenschap in het beruchte Newgate, en deportatie naar Virginia, waar zij in de nieuwe wereld uiteindelijk tot welstand komt. De levensbeschrijving van de vrouw die zo hartstochtelijk vecht voor een plaats in de nieuwe, rijke en zelfbewuste middenklasse, heeft een schitterend tijdsbeeld opgeleverd vol levenschepte taferelen, en een verhaal dat ook nu nog meeslepend is door zijn wervelende dialogen en hoge tempo.

Robinson Crusoe

"Robinson Crusoe is one of the most enduring adventures of the past four centuries and one of the most well-known works in the English language. Or is it? Recently discovered amidst the papers of the 20th century writer and historian H. P. Lovecraft is what claims to be the true story of Robinson Crusoe. Taken from the castaway's own journals and memoirs, and fact-checked by Lovecraft himself, it is free from many of Defoe's edits and alterations. From Lovecraft's work a much smoother, simpler tale emerges--but also a far more disturbing one. Here Crusoe is revealed as a man bearing the terrible curse of the werewolf and the guilt that comes with it--a man with no real incentive to leave his island prison. The cannibals who terrorized Crusoe are revealed to be less human than ever before hinted at--worshippers of a malevolent octopus-headed god. And the island itself is a place of ancient, evil mysteries that threaten Crusoe's sanity--and his very soul. This version of the classic tale, assembled by two legends of English literature and abridged by Peter Clines, is the terrifying supernatural true story of Robinson Crusoe as it has never been told before."--Page 4 of cover.
